## EXCURSIONS

We invite you to take an opportunity of exploring Lithuania during your stay in Vilnius. In order to attend an excursion, please fill in the [Excursion Registration form](#) or contact the Congress Secretariat.

### **VILNIUS CITY TOUR BY BUS**

Vilnius - the capital of Lithuania, situated on the banks of the rivers Neris and Vilnia, was founded in 1323 when Grand Duke Gediminas built a Castle there. Today the tower of this Castle is one of the landmarks and symbols of the city. The old Town of Vilnius is one of the biggest (360 ha) and oldest in Eastern Europe. The magic atmosphere, the magnificent splendid architectural blend of Gothic, Renaissance, Baroque and Classicism styles makes this wonderful city to explore. In 1994 Vilnius Old Town was included into UNESCO heritage register. Nowadays Vilnius is a modern European city, a political, economical, cultural, educational, trade centre of the Republic, the biggest town in the country with a population of about 550 000.

### **EXCURSION TO TRAKAI**

Trakai is located 28 km west of Vilnius. There are many lakes in the region. Trakai Castle dating back to the 15th century (in the middle of Lake Galvė) is the only insular castle throughout Eastern Europe. Island castle is one of the most visited historical-architectural monuments in Lithuania. The distinctive feature of Trakai is that the town was built and preserved by people of different nationalities. Here lived communities of Karaites, Tartars, Lithuanians, Russians and Poles.

During this excursion you will have an opportunity to try one of the most famous non-ritual dishes kybyn (pl. kybynlar). It is a leavened paste cake in the shape of a half-moon with lamb or beef filling baked in the oven or on the tin.

### **EXCURSION TO TRAKAI AND KERNAVE**

Kernave is a cradle of Lithuania. It is an ancient capital of the Grand Duchy of Lithuania situated on the banks of the river Neris. The picturesque hills of Kernave are considered to be a visit card of the Lithuanian tourism and it is included in the UNESCO list of the world cultural heritage. One of the most interesting places of Kernave is the museum. There is a rich collection of archaeological and ethnographical artefacts as well as exhibitions of photographs which show the historical development of Kernave.
